Dear Sir:

Petitioner, 3M Innovative Properties Company, a corporation of the State of Delaware having a place of business at 3M Center, St. Paul, MN, represents that it is the exclusive owner of the entire interest in the above-identified application (the "Subject Application") by virtue of an assignment recorded at Reel 15207, Frame 908/10, on April 9, 2004. Petitioner further represents that it is the exclusive owner of the entire interest in a pending second Application No. 10/821,330, filed April 9, 2004, (the "Second Application") by virtue of an assignment recorded at Reel 16573, Frame 308/09, on May 16, 2005.

Petitioner disclaims the terminal part of the statutory term of any patent granted on the Subject Application that would extend beyond the expiration date of the full statutory term of any patent granted on the Second Application, as such statutory term is defined in 35 USC §§ 154 to 156 and 173, and as the statutory term of any patent granted on the Second Application may be shortened by any terminal disclaimer filed prior to the grant of any patent on the Second Application. Petitioner hereby agrees that any patent granted on the Subject Application shall be

enforceable only for and during such period that any patent granted on the Subject Application and any patent granted on the Second Application are commonly owned. This agreement is to run with any patent granted on the Subject Application and shall be binding upon the grantee, its successors, or assigns.

In making the above disclaimer, Petitioner does not disclaim any terminal part of any patent granted on the Subject Application that would extend to the expiration date of the full statutory term as defined in 35 USC §§ 154 to 156 and 173 of any patent granted on the Second Application, as shortened by any terminal disclaimer filed prior to the grant of such patent granted on the Second Application, in the event that such patent granted on the Second Application: (1) expires for failure to pay a maintenance fee; (2) is held unenforceable or is found invalid by a court of competent jurisdiction; (3) is statutorily disclaimed in whole or terminally disclaimed under 37 CFR § 1.321 after grant; (4) has all claims canceled by a reexamination certificate; (5) is reissued; or (6) is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer filed prior to its grant.

I declare that all statements made herein of my own knowledge are true and that all statements made herein on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under 18 CFR § 1001 and that such willful false statements may jeopardize the validity of the Subject Application or any patent issuing thereon.
